

Company Overview

Central Point Partners, LLC (CPP) is a **diverse Information Technology consulting firm delivering highly specialized IT, engineering, and professional talent nationwide**. CPP partners with enterprise organizations, regulated industries, and public-sector entities to provide high-quality staffing, project delivery, and managed services with speed, scalability, precision, and accountability.

We specialize in **contract, contract-to-hire, direct placement, project-based and Statement of Work engagements**, delivering measurable business outcomes while ensuring compliance, operational continuity, and long-term IT value. Our goal is simple – to power your growth with reliable, high-performing IT delivery talent that strengthens your technology roadmap and accelerates results. Headquartered in Columbus, OH, with **nationwide reach**, Central Point Partners has rapidly evolved from a small Midwestern firm into a national IT delivery organization. With Account Executives and Recruiters strategically located across North America, we are positioned to connect you with the industry’s top technology talent in every market we serve.

Diversity

CPP is an **SBA certified Woman Owned Small Business (WOSB)** and **WBENC certified**. Diversity and Inclusion are fundamental to our core values and culture.

A diverse IT workforce is better able to understand different user needs, regulations, and cultural expectations across industries and regions. Complex IT challenges (cybersecurity, data, cloud, AI) benefit from multiple analytical styles and cultural lenses, improving problem-solving depth and speed.

- NAICS Codes: 423430, 541511, 541512, 541513, 541519, 541990, 561311, 561312, 561330, 561499

Military

Operation Mobile Spouses. CPP collaborated with a major local financial institution through its Operation Mobile Spouses initiative, a program specifically tailored to provide military families with flexible, remote career opportunities for military spouses, leveraging their adaptability and dedication. Benefits: Operational Continuity, Targeted Support, Stability Amid Transition

Finance - Huntington National Bank

Multi-million-dollar Billing, A/P & Account Services Workforce Scaling Program. Filled niche technical roles (senior-level infrastructure, mainframe, application development) supporting core banking systems and modernization initiatives.

- Supported Huntington through multiple bank acquisitions, involving mission-critical systems with zero disruption
- Reduced internal hiring/ onboarding timelines by an estimated 60–70%; reduced attrition, improved delivery continuity.
- Contributed to 267% increase in workforce capacity

Consulting - Advizex Technologies

Delivered **cloud, reliability engineering, and enterprise architecture** consultants supporting managed services and client delivery engagements. Delivered successful migration of a mission-critical enterprise application from legacy UNIX platform to a modern, supported Linux environment, delivering measurable cost efficiency.

- Supported long-term client retention through stable staffing
- Improved SLA performance and delivery consistency
- Enabled service expansion across multiple enterprise accounts

Retail - Sheetz, Inc.

Provided IT and professional staffing for **enterprise retail operations and technology initiatives**.

- Scaled staffing to meet fluctuating project demands
- Reduced time-to-hire while maintaining quality standards
- Supported business continuity during rapid growth

Utilities - American Electric Power (AEP)

Supported **enterprise IT initiatives** with infrastructure, data, and application professionals.

- IDC Workforce Transition project: Provided a structured recruiting pipeline, supported AEP's transition to new work execution methods, ensuring the successful onboarding and integration of new resources into AEP's operations.
- Accomplishments: Rapid Talent Acquisition, Seamless Workforce Transition, and Retention and Strong Performance Metrics

Government - Ohio State Bar Association (OSBA)

Delivered Salesforce, IT management, and application support consultants and compliant, well-documented solutions.

- Led successful platform enhancements
- Improved operational efficiency and system adoption

Government - U.S. Department of Energy, West Valley Cleanup Alliance

Provided training, technical support, and documentation using client's custom Oracle Forms and Reports application.

Government - Ohio Department of Medicaid

Provides Program Management leadership and expertise to define and drive strategy for the Managed Care Next Gen Program.

- As a member of executive leadership team, collaborates with senior leadership, ODM staff, and other state agencies to establish strategy, scope, identify risks and monitor development, ensuring that the Director's and the Governor's initiatives are executed.
- Oversees program, including all deliverables, IT solutions and processes required to meet business objectives. Partners with senior leadership to influence vendor contract management, enhance vendor performance, reduce costs and strengthen program outcomes.
- Leads the adoption of operational improvements to streamline communication for internal and external stakeholders through effective organizational change management.
- Aligns project managers, program/project plans, milestones; supports executive-level program status meetings.

Government - City of Columbus, OH

- Project Management for the "Body Worn Camera" project for Public Safety, Police, and WatchGuard. Worked with Police for policies regarding cruiser mobile computers/devices.
- Managed wireless implementation for Police Ordinance. Responsible for server and network infrastructure completing conversion of property and evidence data.

Education - CUNY

- Supported the IT/telecom needs of CUNY's 24 colleges and enterprise IT (network, data center, help desk, applications).
- Identified and implemented new technologies that advance the University's core mission.
- Led the CUNYfirst Enterprise Resource Planning (ERP) Project, which integrated 25 university systems, covering student administration, financial management, and human resources.
